Nature Fun Facts!

Butterfly: Butterflies taste with their feet! They have taste receptors on their feet to determine if a plant is good food!

Tree Stump: Did you know that even if a tree is cut down, the stump can remain living for hundreds of years by sharing resources with other trees through root networks?

Bird: There are over 10,000 different species of birds in the world! They also have hollow bones which help them fly.

Oak Leaf: In some cultures, oak leaves are a symbol of strength and endurance.

Mushroom: Did you know that some mushrooms can glow in the dark? Some fungi contain bioluminescent enzymes that make them glow in the dark!

Pine Tree: Because of their thick bark, and their ability to shed burnt bark, many pine tree species thrive during forest fires!

Deciduous Tree: Deciduous trees lose their leaves in the fall to conserve energy through colder, darker months.

Rocks: Did you know that the state mineral of Connecticut is the almandine garnet? It's a brownish-red gemstone often used in jewelry!

Clouds: An average cumulus cloud (the big white fluffy ones) can weigh as much as 500 tons!

Flowers: Did you know that some flowers can generate heat to attract insects?

Squirrel: Did you know that squirrels can be right or left handed?

Chipmunk: Chipmunk cheek pouches can stretch three times bigger than the chipmunk's head!

Bumblebee: Bumblebees shiver to keep warm!

Frog: When a frog swallows food, it pulls its eyes down into the roof of its mouth to help push food down their throats.

Pine Cone: Pine cones can stay on the tree for more than 10 years before they fall to the ground.

Acorn: Only 1 in 10,000 acorns will grow into a tree. The rest are eaten or don't have the proper conditions to grow into a tree.

Worm: The largest earthworm ever found measured 22 feet from its nose to the tip of its tail!

Pond: Ponds can be home to hundreds of plant and animal species!

Turtle: Did you know turtles make noises? They can hiss, grunt, click, and chirp!

Ferns: Ostrich Ferns can grow up to 8 feet tall!

Goose: Canada Geese poop about 28 times a day producing about 2 lbs of poop!

Maple Leaf: In some cultures, the maple leaf is a symbol of resilience, unity, and strength.

Fish: Did you know that many fish have excellent vision and can see colors that we can't?

Ant: Ants don't have ears. Instead, they "hear" by feeling vibrations in the ground!
